PROFESSIONAL EXPERIENCE

Impax Asset Management – *Director, Client Group*

New York, NY, Jan 2019 – Jul 2025

- Served as senior relationship manager for multiple segregated account and pooled fund clients; provided exceptional client service and built strong relationships with a wide range of institutional investors in North America including pension funds, global wealth management firms, faith-based organizations, endowments and foundations, and family offices at a UK-based investment management firm specialized in sustainable investing with \$30+ billion in AuM
- Keen focus on cross selling diverse offerings across public active and systematic equities, fixed income, and private markets; excelled at delivering first class client experience with a constant view towards long-term client retention and growth by developing a nuanced understanding of each client's needs and objectives
- Oversaw new client onboarding, including shepherding the firm through a successful onboarding of its first ERISA client; coordinated all aspects of reporting, ensuring all IMA and side letter requirements are fulfilled
- Cross-functional collaborator; partnered closely with stakeholders such as Portfolio Management, Marketing, Product, Sales, Legal & Compliance, Operations and third-party service providers to improve product positioning and elevate the recognition of the firm in addition to knowledge of its investment products by offering clients valuable market insights, enhanced product understanding and proactively addressing specific client concerns and challenges; supported Impax's sales efforts with an eye towards scalability, flexibility and efficiency
- Leveraged market intelligence and competitive analysis in the ESG landscape to determine market trends, identified opportunities and asset allocation needs of investors and developed solutions; attended conferences and networking events to stay on top of regulatory changes and sustainability developments to foster informed discussions with clients such as acting as a sounding board on Net Zero targets and regulatory requirements
- Shaped Impax's internal and external messaging around its ESG and stewardship efforts, products, and thought leadership; provided value added services for clients through enhanced engagement and partnership opportunities, including engaging collaboratively or jointly publishing research on complex sustainability topics
- Gained additional experience and a holistic view of asset management through previous roles:
 - **Consultant Relations:** Led consultant relationships, drove product ratings, gained several new clients across multiple products and deepened connections across Research, field consultants and C-level executives
 - **RFP & Database Specialist:** Led institutional RFP submissions and supported the due diligence process with timely and accurate responses to incoming queries; successfully trained replacement on consultant databases
 - **Business Development:** Identified sales opportunities and supported the full business development cycle, such as leading roadshows for PMs and senior leadership with prospective clients

Astatine Investment Partners LLC - *Vice President* (formerly Alinda Capital Partners)

Greenwich, CT, 2016 – 2018

- Client liaison for over 130 Limited Partners with a dedicated focus on fundraising efforts for the third fund at a \$7 billion private equity firm focused on mid-market infrastructure investments
- Key member of a small Investor Relations team, which raised in excess of \$700 million in assets since joining
- Worked directly with Partner/Head of Investor Solutions to proactively build relationships with prospective LPs and engage consultants, institutions, and intermediaries to drive the firm's fundraising efforts
- Drove marketing content and served as the go-to person for various communications to investors, including creating bespoke marketing presentations and drafting Advisory Committee memos, PPMs and other documents
- Enhanced the due diligence process for prospective LPs with timely completion of RFPs, DDQs, and other requests for data via buildout of data rooms; assisted with AML documentation and other closing activities
- Strengthened relationships with existing Limited Partners and regularly communicated firm and fund updates

LIM Advisors LLC - Vice President**New York, NY, 2013 - 2016**

- Provided customized client service for the North American institutional and retail client base of a \$2 billion Asia focused, multi-strategy (event-driven equity, high yield, opportunistic credit & convertible bond arbitrage) hedge fund as one of two employees based in the U.S.
- Oversaw distribution of investor communication and coordinated shareholder dealing with fund administrators
- Cultivated relationships with prospective investors and liaised with prime brokers' capital introduction teams
- Set up roadshows for CIO and PMs and attended industry events to develop a network of potential investors
- Collaborated closely with COO, CCO, and outside counsel to complete SEC and other U.S. regulatory filings

Karsch Capital Management, LP - Investor Relations Analyst**New York, NY, 2010 - 2013**

- Handled investor inquiries and ad hoc requests at a \$2 billion long/short global equity hedge fund with more than 20 investment vehicles, including long/short, long only, levered, SRI, and UCITS equity offerings
- Worked directly with Managing Director of Investor Relations to manage more than 100 investors globally
- Prepared marketing presentations, investor letters, and offered portfolio commentary to investors regularly
- Produced weekly risk reporting for Head Trader and Risk Manager to aid the portfolio optimization process

Morgan Stanley Investment Management**New York, NY, 2007 - 2010***Risk & Analysis Executive Reporting Associate (2008 - 2010)**Global Equity Risk Analyst (2007 - 2008)*

- Conducted performance attribution analysis for multiple MSIM portfolio management teams, including Global Tactical Asset Allocation, Active International Allocation Equity, and Emerging Market Debt
- Implemented new applications to provide in-depth attribution analysis and portfolio fundamentals
- Identified key risk drivers and risks/rewards by performing risk predictions, risk monitoring and regression analysis
